EXPERIENCE

CIBC - US Private Wealth Management

Toronto, ON

Software Developer / Project Control Officer

Jan 2023 - Aug 2023

- Contributed to the migration of the ORS app to .NET Core by converting existing .NET Web Forms into Razor Pages, resulting in a 78% improvement in application performance
- Designed and constructed an analytic page to monitor and quantify web traffic, enabling the team to gain valuable insights and make informed decisions regarding areas of focus
- Assisted business analysts in transitioning to Figma, resulting in a 50% reduction in the time required to complete UI mockups, thereby enhancing design collaboration and efficiency
- Managed and oversaw tasks, ensuring adherence to deadlines while effectively communicating with vendors and the business team to update and maintain project requirements

CIBC - US Private Wealth Management

Toronto, ON

Production Application Support Analyst

May 2022 - Aug 2022

- Developed and integrated feature enhancements for the "ORS" application, utilizing C#, .NET, JavaScript, and SQL to enhance functionality and improve overall performance
- Contributed to the successful migration to Azure DevOps, streamlining the automation of application building and deployment processes, resulting in a 50% reduction in deployment time
- Collaborated with Business Analysts and Quality Assurance team members to develop software aligned with UI wireframes and designs.
- Monitored and resolved service requests by providing comprehensive support to clients and colleagues, leveraging the Jira ticketing system

University of Guelph - CCS

Guelph, ON

Junior Analyst - DevOps Change Management

May 2021 - Dec 2021

- Led the development of the "MAD - Moneris" application in close collaboration with stakeholders, resulting in a reduction of over 60% in client's work completion time
- Collaborated closely with team members to successfully develop the "RRV" application, leveraging .NET Core, JavaScript, and SQL to deliver a comprehensive solution benefiting over 250 employees
- Partnered with an external team to effectively address accessibility issues across multiple web applications, resulting in a notable 25% improvement in site accessibility

Stark Enterprises Ltd.

Toronto, ON

Co-Founder / Full Stack Developer

Apr 2020 - Aug 2021

- Delivered engaging presentations and interactive demos to educate a diverse group of 50+ international members on HTML/CSS and JavaScript, fostering their understanding and proficiency in web development concepts
- Organized an engaging coding competition to promote member participation and challenge their knowledge in a timed environment, creating an atmosphere of enthusiasm and skill development
- Developed the company website using JavaScript and React, resulting in a 45% increase in popularity and admission rate
